

Modular Systems

Our Story

Kolberg-Pioneer, Inc. (KPI), Johnson Crushers International, Inc. (JCI) and Astec Mobile Screens, Inc. have led the way as global manufacturers for the aggregate, mining, industrial, construction and recycling industries for the past 90 years. As a member of the Astec Industries family, KPI-JCI and Astec Mobile Screens set ourselves apart by designing, manufacturing and selling the most innovative, productive, reliable and safe equipment for the industries we serve, coupled with unparalleled customer service.

We take great pride in knowing our wide range of product lines provide comprehensive solutions that no competitor can match. To that end, we are pleased to offer a complete line of pre-engineered, modular crushing, screening and conveying components ideal for a diverse range of material processing applications. Our modular systems are designed to the highest standards, guaranteed and supported throughout the lifespan of the machine by our global market channels.

Our dedication to the customer is not just in manufacturing the industry's best equipment, but understanding that every wasted minute impacts the bottom line. This is why our team provides fast, precise parts and service support thanks to an integrated relationship with sales, engineering, manufacturing and dealer personnel. Producers can expect unparalleled customer service that is demonstrated every day through our continuous devotion to meeting the needs of our customers.

Kolberg-Pioneer, Inc.

700 West 21st Street
Yankton, SD 57078
Main Office: (800) 542-9311
Service: (800) 532-9311
Parts: (800) 766-9793

Johnson Crushers International, Inc.

86470 Franklin Boulevard
Eugene, OR 97405
Main Office: (800) 314-4656
Service: (866) 875-4058
Parts: (888) 474-0115

Astec Mobile Screens, Inc.

2704 West LeFevre Road
Sterling, IL 61081
Main Office: (800) 545-2125
Service: (800) 545-2125
Parts: (815) 441-5840

Providing Solutions

Modular plants are a perfect solution for the producer who wants a simplified equipment selection process with industry-leading technology and low cost transportation. Our world class manufacturing and state-of-the-art technology will get you up and running without sacrificing any of your processing needs. The modular plants can come pre-wired with plug and play connections making them easy and quick to install.

Ease of Set-up

Our modular plants are easy to construct and come pre-wired with plug and play connections providing end-users with more uptime compared to traditional set-up.

Ease of Transportation

Equipment designed for containerized shipments and flat-bed travel means a quick, affordable and convenient option is always available to get your equipment on-site and operational.

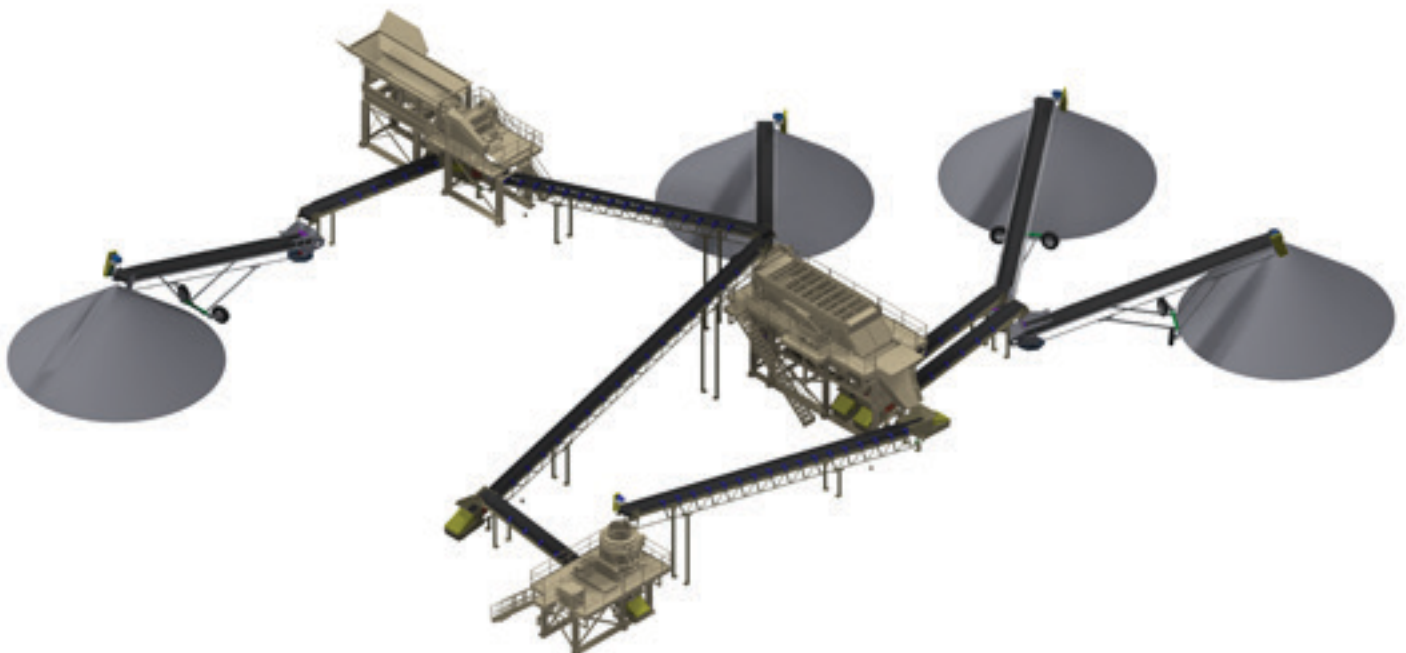

Convenient Availability

Modular plants allow you to purchase the equipment you need without spending time engineering and customizing. Our extensive equipment offering ensures you won't sacrifice any of your processing needs.

Proven Reliability

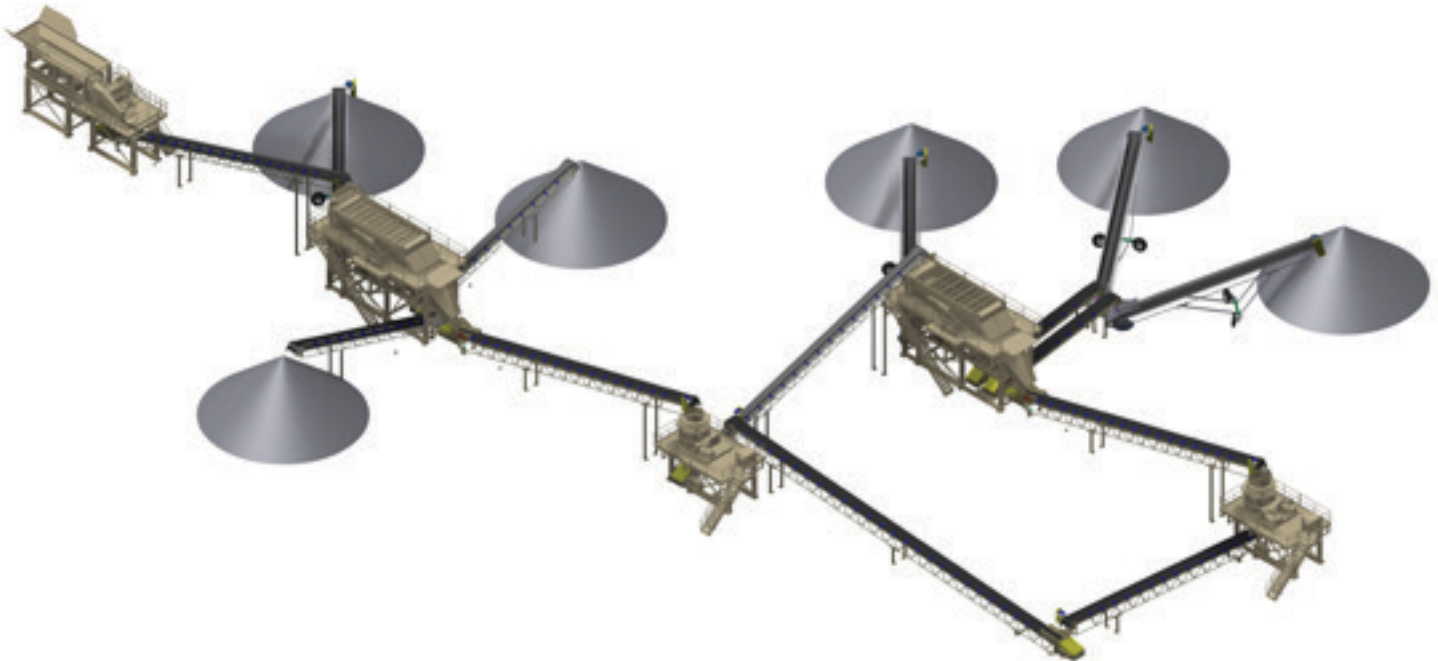

These packaged modular systems contain world-class primary to finish material processing components that have been proven over decades of performance in the field.

2-Stage Reduction: 150 - 500 TPH
Jaw Crusher (1), Horizontal Screen (1), Cone Crusher (1)

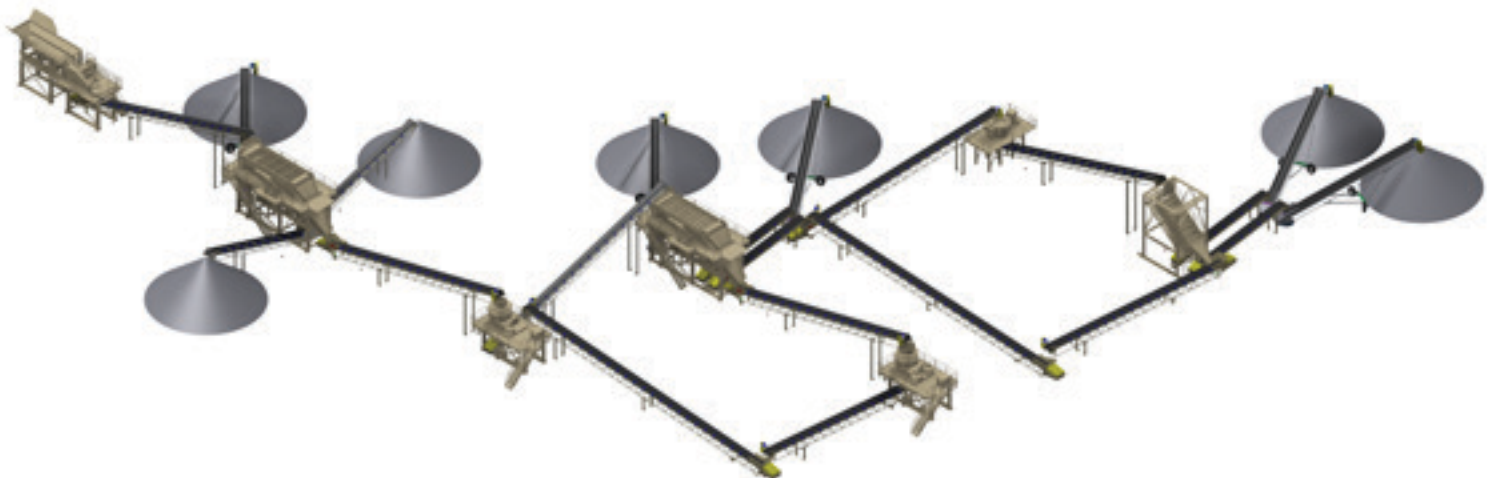

Plant Layouts

3-Stage Reduction: 150 - 500 TPH
Jaw Crusher (1), Horizontal Screen (2), Cone Crusher (2)

4-Stage Reduction: 150 - 500 TPH
Jaw Crusher (1), Horizontal Screen (2), Cone Crusher (2), High-Frequency Screen (1), Impact Crusher (1)

Product Offering

Jaw Crushers

Cone Crushers

Horizontal Shaft Impact Crushers

Vertical Shaft Impact Crushers

Incline Screens

Horizontal Screens

High-Frequency Screens

Radial and Telescoping Conveyors

Motor Control Center

Modular Structures & Systems

- ▶ Complete line of pre-engineered modular crushing, screening and conveying components for various applications.
- ▶ 150-500TPH system configurations to meet production needs today and allow for incremental growth.
- ▶ Bolt-together design for simple installation, smaller site footprint and easy access for maintenance compared to normal stick-built systems.
- ▶ Proven components and reliability from Kolberg-Pioneer, Johnson Crushers International and Astec Mobile Screens.
- ▶ Cost-effective modules are easily transported in standard shipping containers or flatbed trailers for quick re-assembly at different sites.
